OBJECTIVE

Detail-oriented and results-driven **Infotainment Test Engineer** with **1 year 9 months of experience at Tata Consultancy Services (TCS)** in the **automotive domain**, specializing in system validation, test automation, and quality assurance for infotainment systems. Proven ability to design, execute, and maintain robust test plans with a strong focus on **usability, performance, and functionality**.

EXPERIENCE

2021-23

AUTOMATION TESTING, TATA CONSULTANCY SERVICES

- Developed and executed **manual and automated test cases** for in-vehicle infotainment systems in alignment with OEM standards.
- Collaborated with developers to define **test strategies** and **test scenarios**, ensuring 100% requirement coverage.
- Participated in **Model-Based Testing (MBT)** to create efficient test suites for complex infotainment features.
- Raised and tracked defects using **JIRA**, and provided regular status updates through customized test dashboards.
- Supported **UAT** sessions and ensured timely delivery of test artifacts aligned with project SLAs.

EDUCATION

2017-2021

BACHELOR OF ENGINEERING (CSE), BRINDAVAN COLLEGE
BLOCKCHAIN FOOD TRACEABILITY (2021)

- TRACKED FOOD ORIGINS USING BLOCKCHAIN TECHNOLOGY
- DEVELOPED AND INTEGRATED SMART CONTRACTS WITH UNIQUE QR CODES FOR SECURE RECORD KEEPING

SKILLS

- Automotive Infotainment Testing
- User Acceptance Testing (UAT)
- Manual & Automation Testing
- Test Management Tools (HP ALM, JIRA)
- Dashboard & Test Reporting
- Test Case Design & Execution
- Defect Lifecycle Management
- GUI Automation
- Agile Methodology
